22 YEARS OLD, FRENCH

- LOOKING FOR A 5 WEEKS UX DESIGNER INTERNSHIP BETWEEN THE 06/06/17 AND THE 04/08/17 -

HIGH TECH ENGINEER STUDENT

I am strongly interested by innovation and technology, and run in **Hackathons** and **Battle Devs**. I like managing team-projects on the long term, and get stimulated by complexity. I have a strong artistic dimension, and enjoy putting my creative spirit to contribution. I approach all my project with a strong emphasis on **UX**.

EXPERIENCE

NOV. 2016 - PRESENT
TUTOR AND FABLAB MAKER – ECE PARIS
Fablab management :
- Use of prototyping machines for all projects (3D printers, CNC...)
- Help to the students in their builds

Tutoring :
- Helping and teaching to students
- Assisting teachers in their electronics and computer science practical courses

JUN. 2016
1ST PRIZE AND PUBLIC'S PRIZE – ECE INNOV' AWARDS
Winner of this innovation award with my team project REST: a game box to help children gain motivation in the re-education of the upper limb after traumas.
- Design of an analogic and digital electronic circuit
- Integration of the circuit with Python software
- Building of a prototype
  → See more at rest.pierre-moreau.com
